Sub: India International Agro Trade Fair - AgroWorld 2025 | Lucknow, India

Your Excellency,

Greetings from Indian Chamber of Food and Agriculture, New Delhi.

India has large and diversified agriculture production and virtually every crop and animal grown anywhere in the world is grown here. Indian agriculture has come a long way since independence and especially post Green Revolution era, and is currently undergoing transformational changes, powered by policy initiatives. There is a new breed of entrepreneurs, setting up varied agro-enterprises and innovative farmers writing new success stories.

However the potential of agricultural growth, value creation, trade and entrepreneurship is yet to be fully exploited. Indian agriculture, including horticulture, livestock, fisheries and allied sectors, has to accelerate the productivity, more value added activities, greater participation in global trade and creating more jobs and entrepreneurship,

through complete supply chain and value chain re-engineering. This requires more global business and technical collaborations on one hand and showcasing the strengths of Indian agri food sector to the world on the other hand. Towards these objectives, we are organizing **India International Agro Trade Fair - AgroWorld 2025** [agroworldindia.com], Dec 16-18 at Lucknow, India.

AgroWorld 2025 will see who's who of Indian and global agriculture, industry, government, investors, trade, exporters and institutions coming together on a common platform to share their vision of agriculture and collaborate for growth and investments in agriculture food, dairy, poultry, horticulture and agribusinesses as well as showcase the products, technologies and offerings. The brochure of **AgroWorld 2025** [agroworldindia.com] is enclosed for our kind perusal.

Considering the scale of the event and the possibilities of business and investment it promises, we may also like to request you for inviting trade or official delegation from Jordan and to also share the information with the concerned stakeholders in your country for their participation. ICFA would also like to offer AgroWorld platform for hosting any country specific event or launch of any program. Kindly also block your diary for joining the event. Mr. Ankit Kumar (8743043806, ankit.kumar@icfa.org.in) will be further coordinating with your office.

We shall be grateful for your kind consideration and a line of confirmation. Our team will be happy to visit your office to discuss further.

Thanking you and with warm regards

Dr. Tarun Shridhar

India Food and Agriculture : Powerhouse of the World

Global agriculture has witnessed a complete metamorphosis in recent decades with the intrusion of digital technologies and increasing open trade. Agriculture remains the second-largest source of employment worldwide after the services sector. The global value-added generated by agriculture, forestry, and fishing grew by 68 percent in real terms between 2000 and 2020, reaching USD 4.7 trillion in 2020. In the backdrop of the world population expected to reach 10 billion by 2050, food supplies need to increase by 60 percent.

This call for increased dependence on technology-dependent agriculture as the chances of increasing land area appears to be negligible. The world will see advanced farming systems with a renewed need for Agri services, improved planting material, state-of-the-art machinery, agro-processing equipment, good crop care and soil health products, better infrastructure, value chain models, Agri, and food businesses. As India's institutions are providing global expertise and cooperation, it has become the gateway to almost two dozen Asian countries and the whole African continent.

AgroWorld :

The Gateway to Global Agriculture Industry

In a bid to introduce contemporary agriculture-Agri and allied sectors-with best practices, technologies, processing, and marketing that can inevitably help countless farmers and platform owners, ICFA with the support of the Government and several industry associations and international bodies, is launching 4th AgroWorld 2025, an International Exhibition & Conference on Agriculture from 16-18 December, 2025 at Lucknow, India.

Agro-food industry experts, agri-specialists, and government officials from all across the world, will share their prized insights on available technologies, trade and business models, and modern innovations. Indian industry and businesses, institutions, Central Ministries, and State Governments will have opportunities to showcase their products and technologies, programs and services, potential and achievements before the national and global stakeholders to explore investments, technical cooperation, trade, and business, marketing and partnerships opportunities.

Along with its partners, ICFA is passionately promoting AgroWorld 2025 across India and the world incorporating major sectors and key stakeholders in the food, agriculture, horticulture, animal husbandry, aqua, agtech and allied sectors. ICFA invites you to avail this wonderful opportunity to showcase the products, technologies, programs, and services to a colossal target audience in a single, pulsating platform for three consecutive days.

Lucknow : *The Host City*

Nestled in the heart of Uttar Pradesh, Lucknow, the capital of the largest province with a population of 240 million, is a vibrant and dynamic city with rich heritage. Whether you explore its architectural marvels, relish its traditional delicacies, or immerse yourself in its cultural heritage, Lucknow promises an unforgettable journey that will leave you captivated by its timeless charm.

Objectives :

Technology and Investments

To provide a unique opportunity for interaction amongst key stakeholders namely government officials, experts, industry CEOs, agribusiness professionals, traders, farmers, entrepreneurs, developmental agencies, and institutions to explore investments, technologies, marketing, and collaborations among themselves.

Showcasing Opportunity

To provide a platform to the states, institutions, officials, experts, industries, and international bodies to showcase scope and opportunities, latest products, advanced technologies, food and agribusiness models, logistics, post-harvest management, global best practices and connect with farmers and Agri startups.

Networking and Partnerships

To facilitate global companies for exploring opportunities for business and investments, technical and marketing collaborations, exports and partnerships, and signing of MoUs towards finding business partners, expanding business, increased value addition, trade, and agribusinesses.

Policy inputs and Knowledge sharing

Highlights of Agroworld 2025 :

- Sprawling exhibition venue at Lucknow
- World-class infrastructure
- 10 sectors with specialized Pavilions
- National and global participation
- Supported by major industry bodies
- B2B Meetings and business facilitation
- Business Dialogue Sessions
- Progressive farmers' workshops
- Agri Business Summit 2025
- India Agribusiness Excellence Awards 2025

Reap The Rewards Of Exhibiting

Global Visibility | Great Branding | Marketing

Business Opportunities | Collaborations | Partnerships

International Participation : With the increase in demand, more and more international players are attracted to the Indian market which offers enormous opportunities.

Delegates : Find an engaging audience and key persons of Indian and global food and agriculture sectors to explore possibilities of business, investments, and collaborations.

Meet the Right Buyers : The Fair boasts to understand exhibitors' needs and deliver the right buyer, collaborator, and investor to serve the purpose of participation.

Expand Your Business : AgroWorld 2025 is a place where you can learn more about the current national and global business climate. Discovering innovative products and services for your business to stay competitive in today's dynamic business world.

Extensive Media Coverage : With a large number of print and digital media partners and social media initiatives, it offers great exposure and widespread publicity.

About ICFA

The Indian Chamber of Food and Agriculture (ICFA) is the apex body in India dedicated to advancing business, policy, and developmental agendas within the food and agriculture sectors. Serving as a global platform, ICFA plays pivotal role in agro trade facilitation, policy advocacy, technology and agribusiness services. ICFA's proactive approach helps identify and address critical challenges facing Indian agriculture while opening new avenues for national and global partnerships, agro-ventures, investment and international trade. By actively engaging with its various Industry Working Groups and Sector-specific Councils, ICFA amplifies the voice of key stakeholders, including farmers, trade and industry, both at the national and global levels.

ICFA is a leader in driving digital technologies, food and nutrition security, and agriculture sustainability. These efforts have garnered global recognition and strategic partnerships with esteemed organizations such as ICAR, APEDA, WTC, University of California, and many other international entities. With a mission to catalyze agribusinesses and agritech startups, ICFA strives to leverage international collaborations to mobilize technologies and investments.

In less than a decade since its inception, ICFA has signed MoUs with over four dozen national and international organizations, reinforcing its position as a knowledge-driven platform, working in partnerships for sustainable growth in the agriculture sector. ICFA is committed to cultivating a thriving ecosystem for entrepreneurship, which holds immense potential for economic growth, sustainable development, and global food and nutrition security.
